

How do I change the provider to myself when the patient is scheduled under a different provider?

Find the patient on the schedule. Use the 'Change Prov' button.

The screenshot shows the Epic Hyperspace interface for a patient's schedule. The 'Change Prov' button is highlighted with a red box. The schedule table below shows various appointments for 'AMB, DOCTOR W/DEA' on May 25, 2011.

The following box will launch. Either type your name or use the magnifying glass to find yourself. After you select your name as the new provider hit Accept. This will remove the other provider's name from this encounter.

The 'Change Provider' dialog box is shown with the following details:

- New provider:** (Empty text field with a magnifying glass icon)
- Original provider:** TEITELBAUM, ISAAC [4075]
- Visit type:** CONSULT - DIALYSIS
- Length:** 15
- Date:** 5/25/2011
- Time:** 8:45:00 AM
- Buttons:** Accept, Cancel
