DECLARATION OF POLICY

We at University of Colorado Medicine believe accidents and injuries can and must be prevented. We hold fast to the value that safety is the responsibility of everyone. University of Colorado Medicine is aggressively committed to providing a safe and responsible work environment where accidents are rare and if one does occur it is reported promptly. No undertaking shall ever become either so routine or so important that all safety precautions are not observed at all times. The attitude that will prevent all accidents, injuries and the damage to any property must remain of the highest priority to management and its employees.
